

TruePortable

Versatile Imaging. On-the-go.

Lighter, more maneuverable, and better protected than the competition, TruePortable™ was designed specifically with portable provider technologists in mind.

The TruePortable™ can be maneuvered easily up stairs, in tight areas, and underneath beds.

Lightweight | Easy-to-use | Seamless Workflow

Our Solutions

With superior image quality and intuitive imaging software, the ExamVue Duo digital imaging system delivers fast image acquisition, easy workflow management, and lower dose for your patients.

The ExamVue Duo system comes equipped with a strong suite of medical tools, and is available in any configuration for your practice needs.

Premium Protection

TruePortable™ combines portability, durability, power, and advanced image processing to provide exceptional images. We built TruePortable™ with protection of your investment in mind. Protective encasements and carry bag protect your detector and laptop during transportation and use.

Great protection will allow your team to go about their day knowing that your most valuable components are well-protected no matter where you take them.

ExamVue Duo Acquisition Software

With state of the art and intuitive imaging tools, our ExamVue Duo acquisition software produces clear, concise, and quality images with even the oldest generators. Reliable and convenient, the ExamVue Duo software seamlessly integrates into any professional practice.

Ergonomic Design

Unfold and be ready to take an X-ray immediately

On The Go

The TruePortable™ is designed specifically for portable providers, offering a lightweight, versatile system that fits comfortably in compact SUVs and other small vehicles.

Its foldable design enables quick and easy loading and unloading, allowing providers to be prepared for their next patient in no time.
